ORGANISATION OVERVIEW

Poverty Overrated is a non-profit dedicated to empowering disadvantaged African communities. We sell branded goods featuring "Poverty Overrated" to fund key programs, including small business investments, food assistance, sanitary initiatives, and education support. Our goal is to build real opportunities for success and challenge the notion that poverty dictates one's future.

VISION

to create a future in which the potential of African people and communities is not limited by poverty.

MISSION

To offer financial assistance for higher education
Using food programs to battle hunger
To empower communities via entrepreneurship and investment
To inspire hope and self-belief through community upliftment

WEBSITE PURPOSE

KEY PERFORMANCE INDICATORS (KPI)

Advertise the business and its goals.
Sell branded products to generate funds.
Discuss success stories and influence.
Permit users to contribute and take part.
Make the use of funds clear.

GOALS

Raising Awareness of Overrated Poverty
Make money by selling goods.
Promote relationships and donations
Describe the programs and their effects.

CURRENT ANALYSIS (HYPOTHETICAL)

Poverty Overrated is a fast-growing non-profit empowering underprivileged African community via support programs and product sales. The "Poverty Overrated" clothing line raises cash and awareness. Currently, the organization uses unofficial promotion techniques, which restrict donor access and scalability. Despite its great potential, growth and revenue creation are hampered by the lack of an integrated online infrastructure. Its legitimacy and influence in the non-profit sector could be strengthened by creating a professional website that increases exposure, stakeholder involvement, and online transactions.

TARGET AUDIENCE

Young individuals who are in favor of social causes

Sponsors and donors

Students who require financial assistance

Communities in need of support

Advocates of African development projects

WEBSITE FEATURES AND FUNCTIONALITY

Home Page: Overview and call to action (Donate, Shop, Get Help)

About Us: History, mission, and vision of the organization.

Shop: Online store selling branded goods.

Donate Page: Secure donation system.

Programs/Projects: Details on feeding programs, funding for education, and business support.

Success Stories: Testimonials and impact stories

Contact Page: Contact information and form

USER EXPERIENCE AND DESIGN

COLOR SCHEME:

BLACK (IDENTITY AND STRENGTH)

GOLD (ACHIEVEMENT AND QUALITY)

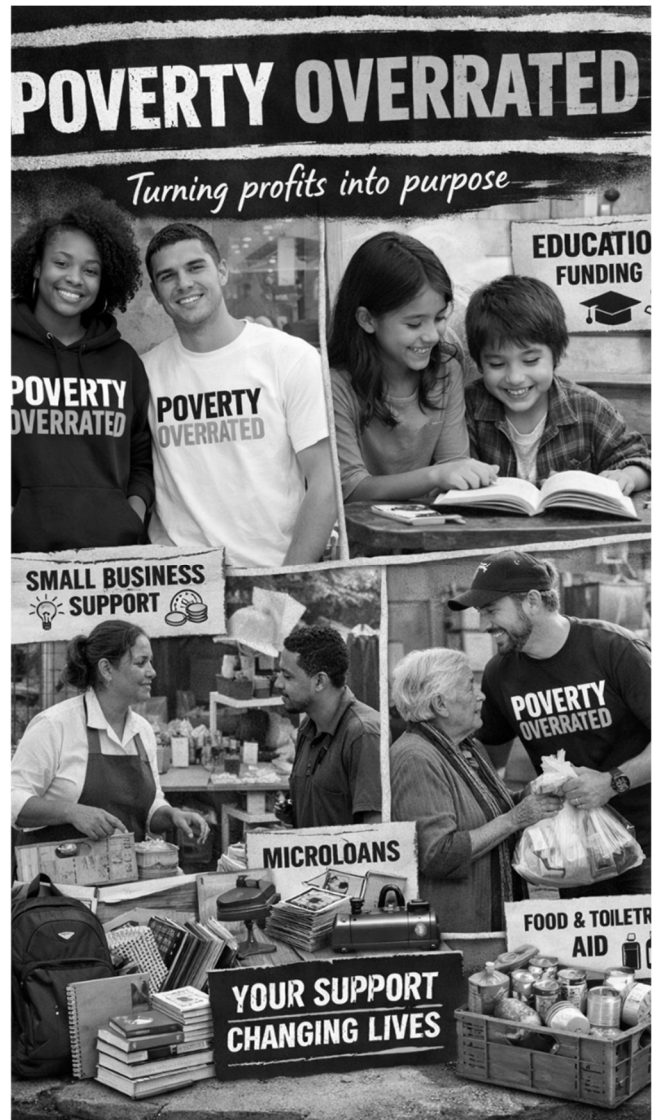

GREEN (SUSTAINABILITY AND GROWTH)

WHITE (SIMPLICITY AND CLARITY)

TOPOGRAPHY

Headings: Bold, modern fonts (e.g., Montserrat)

Body text: Clean and readable (e.g., Open Sans)

USER EXPERIENCE CONSIDERATIONS

LAYOUT AND DESIGN:

Clean, modern,
and responsive
design
Visual storytelling
using images
Clear navigation
menu

USER EXPERIENCE CONSIDERATIONS:

Mobile-friendly
design
Fast loading pages
Easy navigation
Accessible content

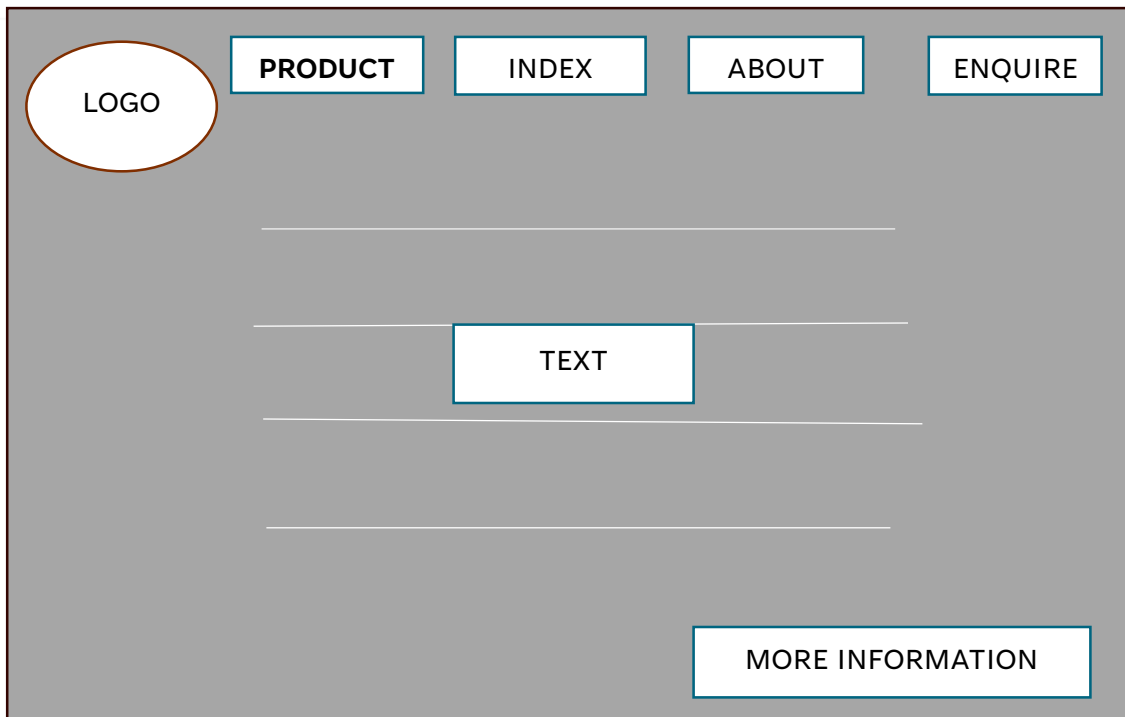

TECHNICAL REQUIREMENTS:

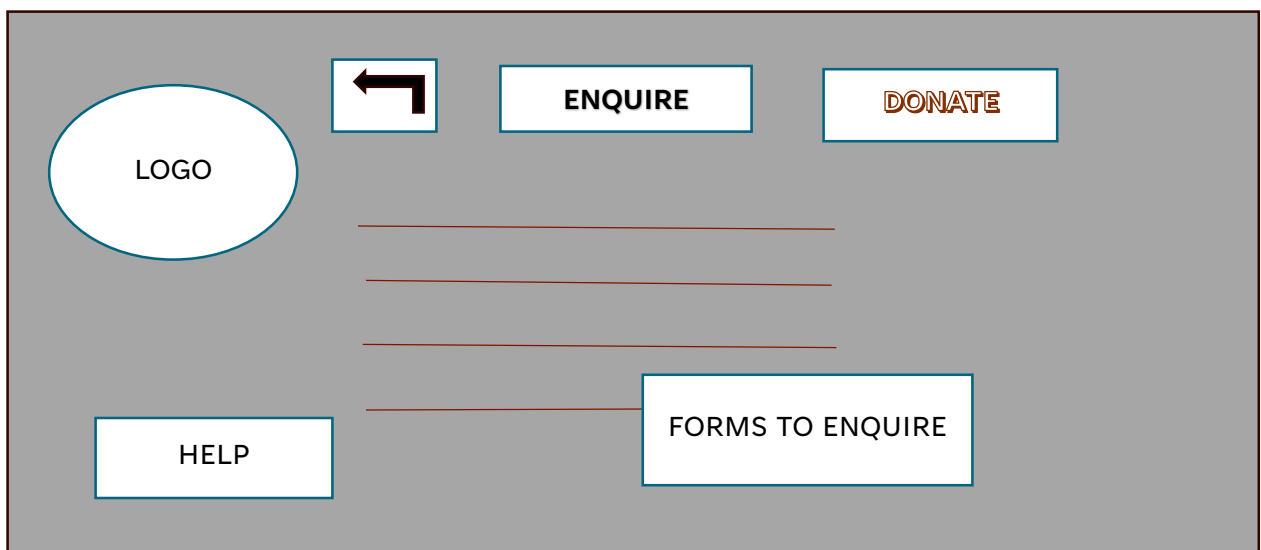

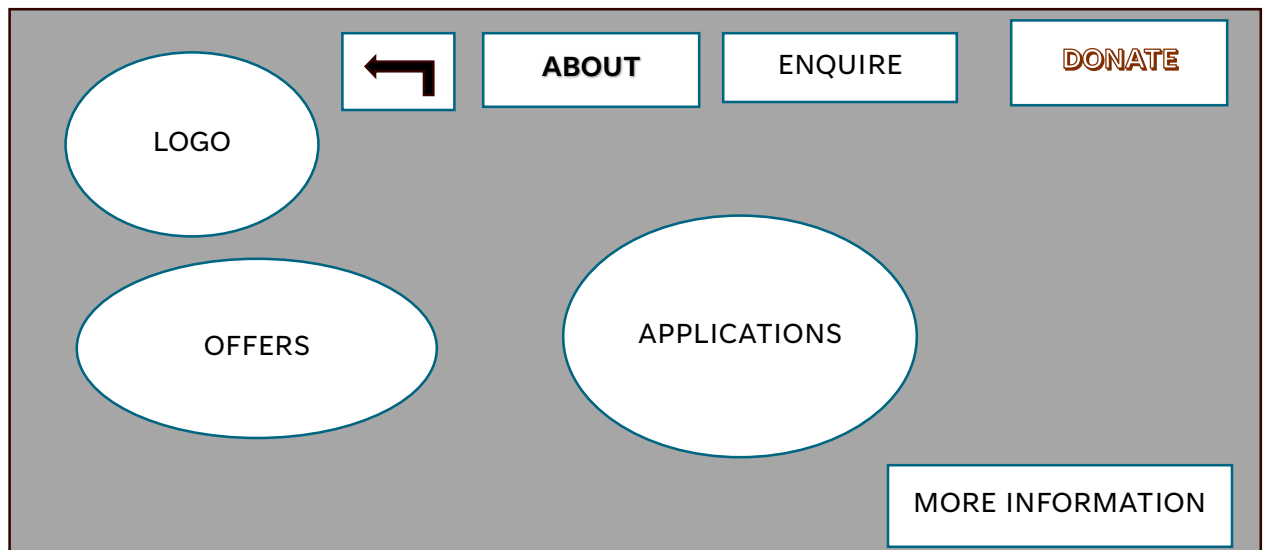

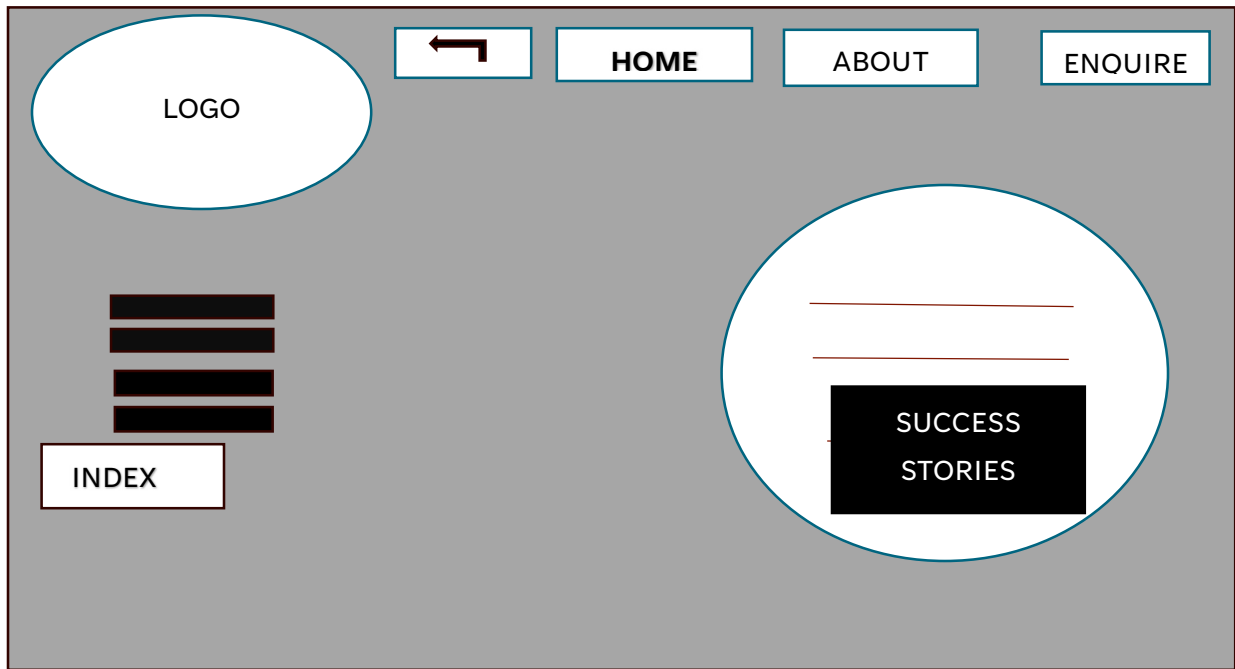

Domain Name:
www.povertyoverrated.org
Hosting: Shared hosting
Technologies:

- HTML
- CSS
- JavaScript

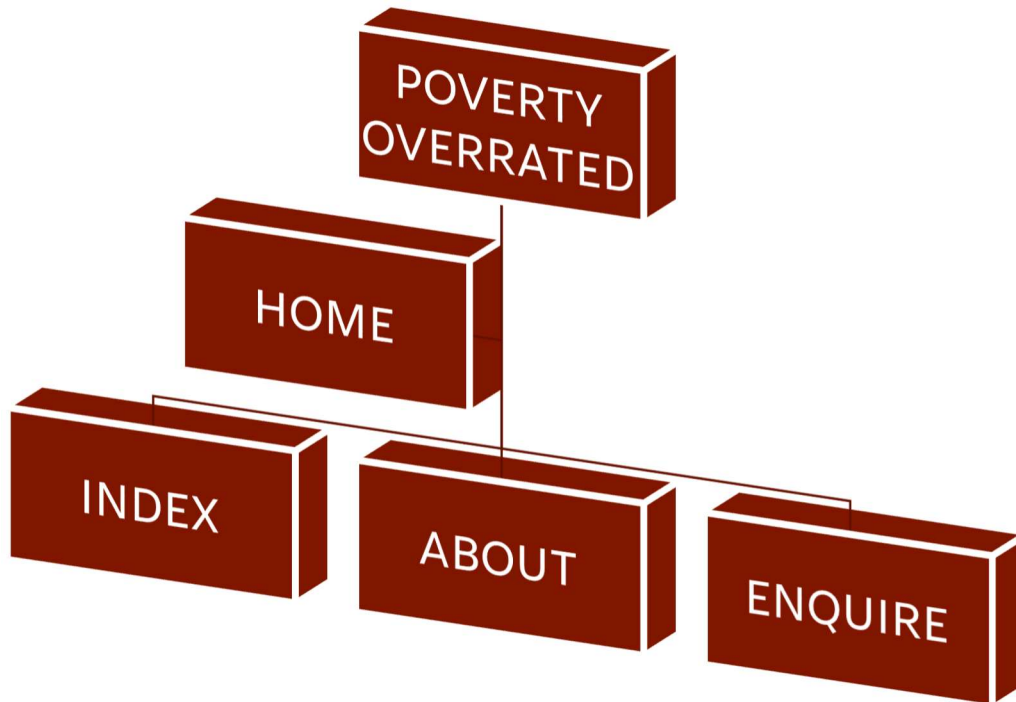

Payment Integration: Pay Fast
or PayPal

TIMELINE AND MILESTONES

PHASE	TASK		ACTIVITIES	DILEVARABLE/MILESTONE
WEEK 1	Research & Planning	- Establish project objectives - Compile requirements and content. - Examine similar websites - Make an outline for the project.	3 days	Project plan and content overview approved
WEEK 2	Design (Wireframes & Layout)	- Create wireframes for the Index, About, Contact, and Enquiries pages. - Select the structure of the	5 days	Wireframes and design layout completed

		arrangement. Select styles, colours, and fonts. - The navigation menu for the plan		
WEEK 3	Development (Coding)	- Make an HTML structure for every page. Include text, pictures, and links. - Put in place page navigation - Make sure you use HTML with suitable syntax.	4 days	Completely operational website (basic version)
WEEK 4	Testing & Debugging	- Look for any broken links. Test forms (page for enquiries) Correct any layout or content mistakes. - Test on various devices and browsers.	2 days	A responsive and error-free website
WEEK 5	Final Review & Submission	- Examine every page Make the last adjustments Verify that the conditions are fulfilled. - Get the project ready for submission.	1 day	The completed and uploaded website

Poverty Overrated describes an approachable process to guarantee the website's successful development within a specified time frame. The project starts with a planning phase during which

research is done, and the objectives and structure of the website are developed. The design phase comes next, when the layout, graphic color scheme, and wireframes are developed and approved as a vital milestone. Another milestone is a working website, which is created during the development process using programming languages like HTML, CSS, and JavaScript. After that, testing makes sure that every feature, including navigation and donation systems, functions properly and error-free. The website's completion serves as the project's last milestone, and it ends with a review and submission phase.

BUDGET

ITEM	ESTIMATED COST (ZAR)
Domain Name (per year)	R150
Hosting (per year)	R1,200
Website Development	R5,000
Maintenance (annual)	R1,000
Total Estimated Cost	R7,350

The projected expenses needed to create and maintain the website are listed in the Poverty Overrated budget. The website's unique online address, a domain name, costs roughly R150 annually, and hosting, which guarantees the website's internet accessibility, costs about R1,200 annually. The website's design and code, including important components like the donation system and item shop, are covered by the development cost, which is projected to be R5,000. A maintenance fee of about R1,000 a year is also included to cover security, upgrades, and resolving any technical problems. All things considered, the budget guarantees that the website is properly constructed, safe, and long-lasting while advancing the organization's goals.
